LOCATION: MEXICO CITY, MEXICO

WHO WE ARE

Acuant is a leading B2B provider of identity verification technology. We are revolutionizing the way consumers transact by allowing businesses to quickly and seamlessly identify who they are doing business on any platform while protecting both parties. Join a global team that works with leaders in all industries to deliver best in class technology.

Acuant's Trusted Identity Platform provides complete identity verification based on your level of risk so you can build your business with valid customers. Powered by AI for the highest speed and accuracy, omnichannel products enable seamless customer experiences to increase conversions in the digital economy. Scalable, secure and compliant (KYC, AML & GDPR), Acuant allows businesses to establish trusted identities from any location in seconds. www.acuant.com

WHAT WE LOOK FOR

We are looking for an experienced individual to join our talented team of developers. The ideal candidate will be responsible for the development of an eCommerce product using Javascript and Python.

Since this person will be the primary liaison to our team located in the United States, it is important that they possess excellent communication skills (written and verbal) in English.

Key Qualifications:

- 5+ years of e-commerce development experience.
- Development experience using Javascript (jQuery/Angular/Node.js) and Python is a must.
- Working experience using HTML/CSS/AJAX.
- Working knowledge of Version Control repository management services (Github/Gitlab).
- Working knowledge of CI/CD.
- Experience working in the Cloud with AWS services (Lambda, S3, DynamoDB, API Gateway).
- Familiar with agile methodologies.

Soft Skills Qualifications:

- Fluent written and spoken English – MANDATORY.
- Ability to take abstract user requirements and build a product that addresses the underlying use case.
- Strong communication skills, both written and verbal.
- Ability to work within a small high achieving team, as well as independently.
- Self-driven, highly motivated, innovative.

Desired:

- Knowledge of Django framework.
- Knowledge Behavior-driven development (BDD) model.
- Knowledge QA.
- Knowledge Cucumber, Selenium.

WHAT YOU BE RESPONSIBLE FOR

- Effective planning, testing, implementation and administration of interactive technologies, websites, and applications.

HOW WE VALUE OUR EMPLOYEES

- You will always be heard, decisions are collaborative
- Competitive compensation
- Challenging and rewarding work
- Generous benefits package
- Work with an incredible team of smart and mission-driven people
