

Acuant IDscan®

Intelligent Data Capture & Auto-Fill Software

Accelerate Productivity & Focus On Customers

- ✓ Reduce customer abandonment rates
- ✓ Obtain accurate data from the start
- ✓ Increase operational efficiency & revenue

Acuant IDscan® instantly extracts accurate data and images from government issued IDs (driver's licenses, passports, etc.) and medical & auto insurance cards to populate directly in your application. Utilize a desktop scanner or any mobile device to automate customer workflows and streamline database/CRM management. IDscan works in any industry, integrates easily into any environment and reads IDs from over 196 countries and all 50 US states. Acuant offers AssureID™ identity verification and facial recognition technology in the same workflow to provide more security.

Use Cases

Account Opening

Application Forms

Management

Customer Onboarding

CRM Management

Loan Origination

Loyalty Program Registration

Healthcare Providers Visitor

Human Capital Management

Eliminate Manual Errors

Image processing expertise with cutting-edge pattern detection results in highest accuracy
