

Acuant Identity

Alternative & Social Data

Digital Footprint Analysis for Real Time Identity Verification

INCREASED
ONBOARDING

GLOBAL
SOLUTION

AUTOMATED
VERIFICATION

VERIFY TRUSTED
IDENTITIES

IMPROVED USER
EXPERIENCE

An Innovative Consent-Based Approach to KYC & AML

The new benchmark for online identity verification solutions. Reduce fraud losses and increase customer onboarding by up to 68% with our multi-channel identity verification solutions.

Analyze all of the available data points from a customer's digital footprint, returning a verified name, age, location, Social Fraud Score, Employment Score and a traffic light confidence indicator. This data can be used for ID checks, KYC, trust economy and fraud prevention.

GLOBAL
SOLUTION

We have clients across
7 continents in every
country.

INCREASED
ONBOARDING

Onboard up to 68%
more customers.

AUTOMATED
PROCESS

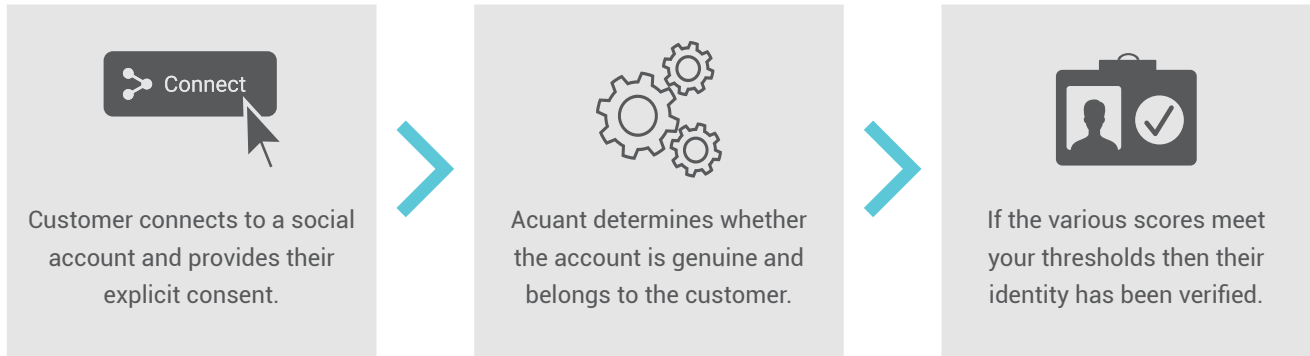

Reduce costs with a fully
automated ID verification
process.

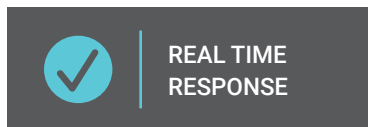

POSITIVE USER
EXPERIENCE

Reduce drop-offs by
minimizing friction with a
seamless user journey.

How Does It Work?

Global Identity Verification. Automated.

What Makes Acuant Identity Different?

 UNIQUE SCORES	Data from the customer's digital footprint is aggregated, analyzed to produce actionable insights and unique scores, Over 18 Check, Name Match and more.
 GDPR COMPLIANT	Meet GDPR requirements using your specific Terms of Service and Privacy Policy at the point of customer consent.
 MOBILE OPTIMIZED	UI components designed to work across desktop, tablet and mobile devices, including as part of our iOS/Android SDKs.
 FLEXIBILITY	Choose from our no code hosted solutions or complete control over customization using our RESTful API.
