WASTE

Global. Automated. Flexible. Compliant.

With over 6,000 utility and telco providers across 40 different countries, we are able to offer your business a global, verified source of address data that is current, complete and 100% consented by your customers.

Our fully automated solution allows you to reduce the costs of manual processes, reduce fraud, improve the customer experience and boost confidence in customer identity and address.

GLOBAL
SOLUTION

Acuant Utility connects to thousands of utility providers worldwide.

ACCURATE
DATA

Direct-from-source data eliminates the potential for fraud or forgery.

UP-TO-DATE
INFORMATION

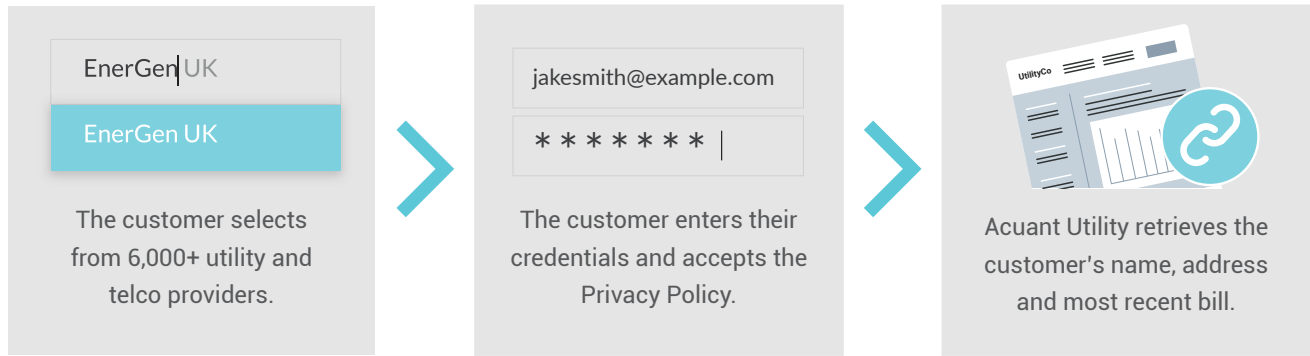

We receive the most recent bill available from the utility account.

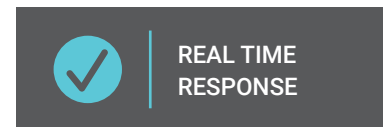

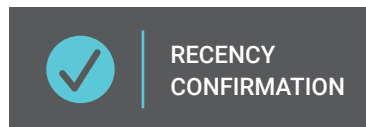

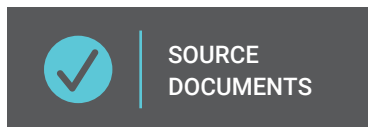

SAFE AND
SECURE

Industry-leading safeguards protect the customer's data.

How Does It Work?

Proof of Address. Automated.

What Are the Benefits?

- AUTOMATED** | Fully automated technology minimizes friction and reduces costs over a manual review process.
- GDPR COMPLIANT** | Meet GDPR requirements using your specific Terms of Service & Privacy Policy at the point of customer consent.
- MOBILE OPTIMIZED** | UI components designed to work across desktop, tablet and mobile devices, including as part of our iOS/Android SDKs.
- FLEXIBLE** | Choose from our no code hosted solutions or complete control over customization using our RESTful API.
